

## OFFICIAL

## Call For Convention

## Of the Ohio Sunday School Association.

## Complete Program Has Been Prepared.

## Many Prominent Speakers Will be Present.

## Display of General Supplies Will be a Feature.

The official call for the 41st annual convention of the Ohio Sunday School Association, has been issued. It will be held in the First M. E. church, this city, Tuesday, Wednesday and Thursday, June 5, 6 and 7.

The program of the convention has been completed. It contains the names of a number of the most celebrated Sunday school workers in the United States. A feature of the convention will be the music which will be in charge of Mr. P. P. Bilhorn, of Chicago. He is a composer of renown and has no superior as a solo singer of sacred music. Among those who will address the convention are the following: C. D. Meigs, Indianapolis; Mrs. Mary Foster Bryner, Chicago; Hon. Thomas H. Clark, author of the Clark Local Option bill, Columbus; President W. O. Thompson, Ohio State University, Columbus, and many others including the officers of the association.

All delegates will repair to the First M. E. church, where they will find the local committee of arrangements awaiting them at the street entrance of the Sunday school room. The first session of the convention will be called at 9:30 o'clock on Tuesday morning, June 5th.

Upon entering the church auditorium delegates will be seated by districts. The sittings will be marked by banners bearing the number of the district in bold figures.

Arrangements have been made for a display of Sunday school supplies and equipment in the spacious parlors of the church in a great Sunday school bazaar. This will be to the Sunday school worker what the State fair is to the farmer—a place where he will be able to see the latest tools for Sunday school work.

County secretaries will be provided several days before the convention with a blank card, upon which will appear an announcement of the convention, together with the name of the county and the number of the district in which the county has a share, printed in red ink. These will be given to delegates and visitors and all persons attending the convention are requested to wear them.

The dance that was given by the German lodge Thursday evening was largely attended.

## BOOMING.

Zander Has New Telephone—Lively Industrial News.

(Special Correspondence.)  
Simpson, May 9.—The new telephone has been completed as far

The real rough rider is the man who rides the river with a twisting, squirming log for a saddle, on which he stands, balancing himself to its every motion. If his coolness fails or his nerve gives way, disaster and death reach out for him.

It's the giving way of the "nerve" which proves fatal to so many a man. Perhaps he is simply crossing the street, as he has done ten thousand times. He hears a shout, stops, hesitates, gets "rattled" and is "over." When a man finds that his memory plays him false often, when he starts to get something and forgets what he went for, when he knows he has locked the front door and yet an irritating uncertainty compels him to get up and verify his knowledge, then that man is in danger at any minute when confronted by a trifling danger. He is unnerved.

This condition can be perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, nourishes the nerves, and purifies the blood. It contains no alcohol, whiskey or other intoxicant.

"The reason I delayed writing was because I wanted to write only after I had taken the medicine before giving my statement, and now I can send a good, conscientious testimonial," writes Chas. A. Sergeant, Esq., of Plain City, Madison Co., Ohio. "During the summer and fall of 1897 I became all 'run down.' I was out of vigor and stomach out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Dr. Pierce's Golden Medical Discovery, and thanks to you for your advice, I used six bottles; and since I stopped taking it about one year ago, I have not taken any medicine of any kind, and have been able to work every day. My appetite is good, I can eat three square meals a day, I do not feel that miserable burning in the stomach after eating, and my blood and nerves are in good shape."

Dr. Pierce's Pellets cure biliousness as this village. A station has been established in Robert Gates' grocery store in the Eagle block.

Elsie Hogle's youngest son died Monday of blood poison at his grandfather's residence. The funeral was held Wednesday forenoon.

The W. C. T. U. convention, held at the Methodist church, Tuesday, was largely attended.

Work is being pushed along as fast as can be expected at the Granite Clay company's building. Men are being hired every day. It is almost impossible for them to find board and lodging. The plant is to be erected as soon as possible and is to cost when completed \$100,000.

Myers and Hall have sold their stone-ware plant to Akron capitalists.

The Bowers' Insulator works have closed down for an indefinite time.

The Dixon factory has again resumed work after a short shut down.

Mrs. Mollie Hope has returned home from Del Rio, where she spent a few days with her friends.

Mr. Curt Robenastine and wife were at Canton, on business, last week.

The Akron Pipe company expects to start up full force in the near future.

## Unable to Work.

Chas. Ruppley of Atwater, O., was unable to work on account of kidney trouble. After using Foley's Kidney Cure four days he was cured.

## HOLDING

## Two Salaried Offices.

## Hon. S. L. Patterson Enjoys This Distinction

## In Clear Violation of the Statutes.

## He is a Collector at Port of Waverly

## And Member of General Assembly—Statement Refused.

(Special Correspondence.)

Columbus, May 10.—The reappointment by the State Board of Public Works of Hon. S. L. Patterson of Pike county, as collector of tolls of the Ohio canal at Waverly has called attention to the fact that he is holding two salaried offices under the State and that he has done so since he qualified as State Senator. While there is no general constitutional or statutory prohibition preventing a citizen of Ohio from holding two offices at the same time, there are statutory provisions making it illegal for persons who hold certain designated offices from holding other specified offices and Senator Patterson's position seems to be clearly contrary to law.

Section 4, article 2, of the State constitution, says:

"No person holding office under the authority of the United States or any lucrative office under the authority of this State shall be eligible to or have a seat in the General Assembly; but this provision shall not extend to township officers, justices of the peace, notaries public or officers of the militia."

Now Senator Patterson's position as collector at Waverly is a lucrative office, for the salary of \$250 per year is attached. The appointment of such collectors is authorized by section 218-123 of Bate's Revised Statutes. Thus the technical question as to whether the position is an office is removed.

Thorp on Public Offices quotes the following definition: "A public office is an agency for the State and the person whose duty it is to perform this agency is a public officer."

Although it is believed that Mr. Patterson is ineligible to hold office as a member of the General Assembly so long as he retains his position as collector, no official act of his as State Senator can be declared invalid, for, during the recent session, he served as a de facto officer. He is also entitled to draw his salary as State Senator, but the State has authority to resist payment at any time on account of the fact that he is not a de jure officer.

The State would have no ground for recovering the salary already paid him, since, if he should be ousted, there is no one to claim the office for the period during which Senator Patterson has already served. He may, therefore, continue to draw both salaries and to perform official acts in both positions so long as no objection is raised by the State.

Senator Patterson spent almost his entire time either in this city or in Washington during the session of the Legislature and the question naturally arises as to whether or not he was able during that time to attend properly to his duties as collector. Secretary McLean of the State Board of Public Works, when asked about the matter yesterday, refused to make any statement whatsoever. He did not, however, refuse to allow an examination of the Secretary's books. They show no receipts from tolls at the Waverly port during the months of January, February, March and April, whereas the collection of tolls at Chillicothe, the port next to the north was reported nearly every week.
